OVERVIEW

STRATEGIC LOGISTICS LOCATION NEAR THE PORT OF ZEEBRUGGE

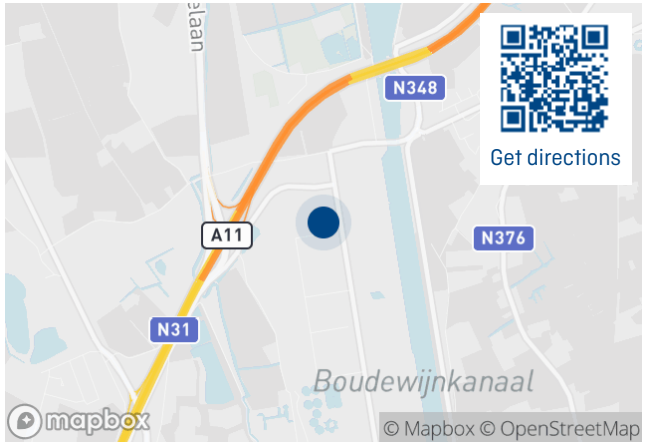

P3 Bruges North is a high-quality logistics and semi-industrial facility located in the Zeveneke/Pathoekeweg industrial area in Bruges. The property benefits from excellent access to the Port of Zeebrugge as well as the A11, E40 and E34 motorways, making it a highly strategic location for both national and international distribution. Its proximity to one of Europe's leading RoRo and container ports creates a strong base for businesses with port-related and cross-border logistics requirements.

EXCELLENT CONNECTIVITY ACROSS BELGIUM AND NORTHERN EUROPE

The A11 motorway provides an efficient connection to the E40, linking Bruges with Ghent, Brussels and Ostend, and to the E34 towards Antwerp. This road network enables fast access across Belgium and supports onward distribution into the Netherlands and northern France. The combination of motorway connectivity and proximity to the port makes P3 Bruges North particularly suitable for occupiers managing high-volume or time-sensitive supply chains.

IDEAL FOR PORT-CENTRIC LOGISTICS & DISTRIBUTION

The facility is well positioned for a broad range of logistics and semi-industrial activities, including port-centric logistics, import and export operations, container distribution, e-commerce fulfilment and third-party logistics (3PL). Its location within an established industrial area also supports efficient connections with transport operators, suppliers and other logistics businesses. For companies looking to combine port access, international distribution and operational flexibility, P3 Bruges North offers a highly attractive logistics base in western Belgium.
