OVERVIEW

Flexible Space for Logistics and Light Industrial Operations

The redevelopment will create approximately 18,640 sqm of modern lettable space, including around 16,000 sqm of warehouse and production space and 2,640 sqm of office space. Designed to combine logistics and semi-industrial functionality, the property offers a flexible environment for a wide range of operational requirements. A 10.5-metre clear height, 2 dock doors, 11 ground-level loading doors, a 32-metre truck court and approximately 140 car parking spaces support efficient distribution and production activities.

Sustainable and Future-Ready Development

Sustainability plays an important role in the redevelopment of P3 Emmeloord. The property incorporates LED lighting and energy-efficient floor heating powered by a heat pump, while the project is designed to achieve BREEAM “Excellent” certification, subject to the installation of rooftop photovoltaic panels. By combining modern building technology with the redevelopment of the site, P3 Emmeloord will provide an efficient and future-ready environment for long-term logistics and industrial operations.
