STRATEGIC LOGISTICS LOCATION IN CENTRAL POLAND

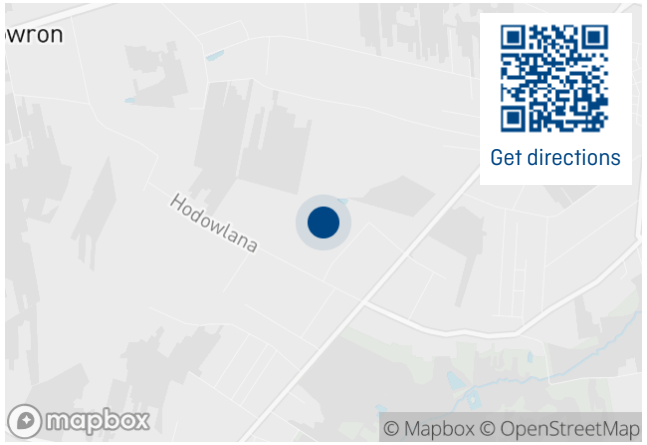

P3 Radom is a modern logistics park located in Radom, central Poland, with convenient access to the S7 expressway and key distribution routes towards Warsaw, Kielce, Lublin and southern Poland. The park benefits from strong road and rail connections, public transport links and access to Warsaw-Radom Airport, making it well positioned for companies serving regional and national markets.

FLEXIBLE SPACE FOR LOGISTICS, E-COMMERCE & LIGHT MANUFACTURING

The park comprises four buildings delivered between 2012 and 2017, offering a total of approximately 39,400 m² of GLA. The property provides flexible warehouse space suitable for logistics, e-commerce, distribution and light manufacturing. The buildings offer a minimum clear height of 10 metres, a floor loading capacity of 50 kN/m² and LED lighting, supporting efficient and modern day-to-day operations.

STRONG REGIONAL MARKET & EXCELLENT CONNECTIVITY

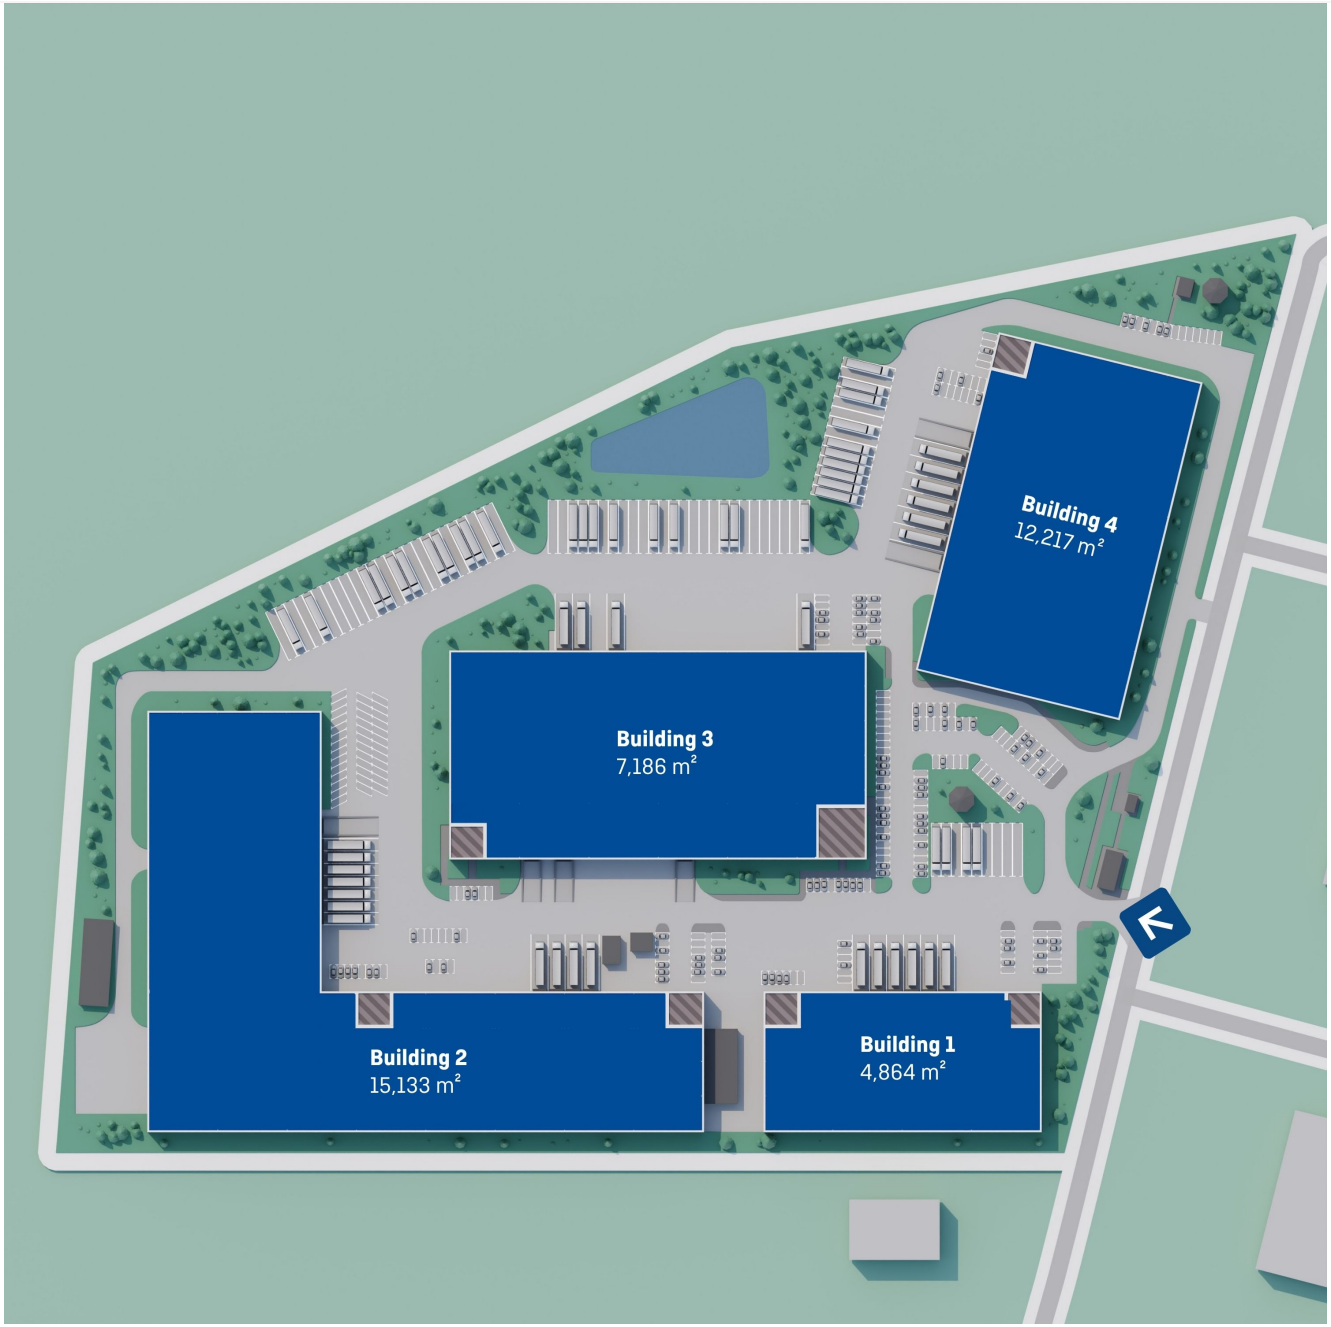

Radom is one of the largest cities in the Mazovian Voivodeship and an established industrial and commercial centre in central Poland. Its location between Warsaw, Kielce and Lublin provides efficient access to central, eastern and southern Poland, while the S7 expressway offers a direct north-south connection towards Warsaw and southern regions. The city also benefits from a substantial urban workforce, established road and rail infrastructure and access to Warsaw-Radom Airport, reinforcing the region's attractiveness for logistics, distribution, e-commerce and light production activities.
